Introducing**Our Own Seedlings****Our 1954 Hits****Available Later****FIRST CHOICE OF OUR CUSTOMERS**

Floradora Finlandia
Blue Ridge Lilac Time
Bavaria

So many of our customers and friends have **unfailingly picked** those among hundreds of others in our private stock as their **FAVORITES** and **desired to buy them right then and there**. However, we were still propagating them. So now, after getting endless inquiries, we feel we should at least introduce them. We only regret that they will not be available until middle of May. All orders taken will be filled in rotation and first come first served. They are all beauties.

Here they are:

FLORADORA. Exquisite lively rosy orchid with purple overcasts. Large round fringed and ruffled blooms. Dark green ruffled foliage sporting deep rosy under coats. Most prolific in growth and blooming habits.

FINLANDIA. Midnight purple, fringed blossoms on very glossy dark bronzy foliage. Ruffled leaves have bright red undersides.

(OVER)

OUR 1954 NOVELTIES—Continued

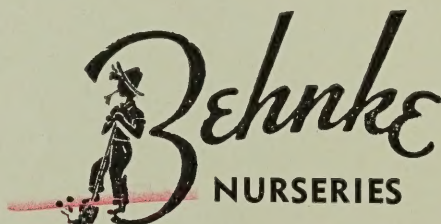

BLUE RIDGE. Blossoms resemble blue waves and ripples with darker shadows. Quilted glistening leaves. A wonderful bloomer.

LILAC TIME. Lovely lavender ruffled blooms shaded orchid. As gay as spring-time. Bright red flower stems and quilted foliage.

BAVARIA. A rich sky blue, the blossoms fairly sparkle with a distinct sugary white edge. Shiny quilted leaves are heart-shaped of luscious emerald green. A remarkable improvement in bloom as well as in foliage over the original Lady Geneva. Bavaria's white edge never fades.

Each \$2.50, three for \$6.50.

REMEMBER, READY ABOUT MAY 15TH
